Work On the Canal.

The Florida Coast Line Canal and Transportation company have commenced work in earnest, having purchased in Beaufort, S. C., two large dredges, Wimbee and South Carolina. The Wimbee, which was taken in at St. Augustine, has finished the cut at the "divide," where the tide water from Matanzas inlet and Dade county, was registered at the Indian St. Augustine inlet meet. This cut was something over 1,300 feet in length, 60 feet at low water. This dredge has also Mr. Wade Jones returned home Wed- made a cut of about the same length and width in the Summer Haven river.

> The dredge South Carolina was taken between Daytona and Ormond, the first | Point.

Both dredges have been fitted with surface condensers. Having been used in fresh water before being brought here, necessitated rather extensive repairs or changes to be made for use in salt water. The machinery is of the same size and Mrs. W. S. Norwood was among the make as that of the two large dredges passengers southbound Monday after- formerly built at New Smyrna by the noon as far as Cocoa, on a visit to her company, but the hulls are very much stronger and heavier. The South Carolina's draught is 51 feet and the Wim-

Work will be pushed night and day for Miami. until the two dredges meet, as double down the river points can be forwarded crews will be placed on them shortly. Mr. E. M. Walker, treasurer, and Mr. Geo. F. Miles, general manager, were on a tour of inspection of route and dredges last week, leaving for the north on the

Primary Amendments.

Jasper News and one of the most popular Democrats in Florida, thus gives his views on the primary and the necessary amendments to improving it:

The amendments necessary to the primary election law of our state are, in my opinion-

First—For the state to pay the expenses of the primary. This would give the poor men an equal chance with the rich to become candidates for office.

Second-Have only one primary election for all political parties, instead of a primary election for each party as at present, and have all political parties entering the primary represented on all the boards of inspectors. This would reduce the expense and secure fairness in the conduct of the election.

Bessie Grisard and Miss Aleph office in a general election, where more their leading players for the coming winvere among the arrivals Saturday than two candidates are running for the ter season. afternoon from Tennessee. Miss Grisard same office, and I see no good reason why spent part of the week in Titusville, but the rules of a primary should be more will start up the public school at Cocoa rigid than those governing a general elecnext week, for which place she left Wed: tion. Besides, experience has demonnesday. Her brother, Parker Grisard, strated that the candidate receiving a accompanied her here and will attend plurality vote in the first primary is al-Stetson university, at DeLand, this win- most sure to receive a majority vote in the second primary. And then again it would save many dollars of expense.

Fourth-Let the primary election be held not more than ten or fifteen days before the general election. This would shorten the campaign and reduce political agitation.

Fifth—Let the legal registration of vowas killed last month at this place, ar- and expense of registration by executive
